PREFERENCE, EVALUATION AND PLACEMENT PROCEDURES

In order for an applicant's application to the announced programs to be valid and for placement to occur, the applicant must meet the minimum requirement of **50 points**. For this purpose, the

INTERNATIONAL STUDENT PROGRAM APPLICATION AND REGISTRATION GUIDE

applicant's secondary education achievement status (diploma grade) and, if available, the **TR-YÖS score** are taken into evaluation. If the applicant does not have a TR-YÖS score, the designated portion of the diploma grade is taken as the basis.

In the calculation of the placement score, **75%** of the applicant's foreign secondary education achievement score (diploma grade) and, if available, **25%** of the TR-YÖS score are taken into account. For applicants who will apply only with a foreign secondary education achievement score, **75%** of the secondary education achievement score (diploma grade) is taken. In placement, starting from the applicant with the highest score, primary placement is made up to the number of quotas by taking into account the applicants' order of program preferences.

In case of vacant quotas, an additional announcement may be made and preferences may be received again. The conditions of the additional announcement are determined by the decision of the Commission and the approval of the Senate. Applicants who have been placed in any program in the initial placement cannot benefit from additional preferences.

The foreign secondary education grade point averages of the applicants are evaluated by taking into account the grading system of the country from which they graduated. They are included in the placement score by using the conversion table determined by the University.

Applicants will be able to make a maximum of **3 program preferences** on the dates specified in the calendar included in the KMU International Student Program Application and Registration Guide. Preferences cannot be made outside the periods specified in the calendar.

Applications are evaluated by the Commission. Applications of applicants who are determined not to meet the application requirements are not taken into evaluation.

In placement, among the applicants who have preferred the same program, priority shall be given to the applicant with the higher placement score in determining those who are entitled to final registration in a program. In case of equality, the right of registration shall be granted to the applicant who has listed the relevant program at a higher preference. If equality still continues, priority shall be given to the applicant whose date of birth is closer to the present date (younger age). After the evaluation and placement procedures, the list of applicants who are entitled to register shall be announced on the page <https://kmu.edu.tr/yos/tr>. The results will also be available to applicants through the application system, and a letter of acceptance will be sent via the e-mail address defined in the system to applicants who have been placed in a program. If the announced quotas are not filled or if deemed necessary by the Commission, an additional announcement may be made. In the event of an additional announcement, the student admission requirements and calendar will be announced

INTERNATIONAL STUDENT PROGRAM APPLICATION AND REGISTRATION GUIDE

by preparing a separate guide by the Commission.

SPECIAL TALENT EXAMINATION

An applicant who will prefer programs admitting students through a special talent examination must have a sufficient score for the preference procedures specified in the guide.

In order for an applicant to be able to take the special talent examination after the application and preference procedures, the applicant must have been placed in one of the relevant programs. It is mandatory for an applicant placed in programs admitting students through a special talent examination to take the special talent examination on the date specified in the guide.

An applicant who does not attend the special talent examination on the specified date or who is unsuccessful in the examination shall have their placement cancelled and shall lose the right to become a student in the special talent program.

The results of the special talent examination shall be announced on the page <https://kmu.edu.tr/yos/tr>.
